

## How to Find the Serial Number on Your Starcraft boat

The serial number is your key to obtaining accurate parts information and availability for your Starcraft boat.

On Starcraft pontoon boats, deckboats and runabouts, you can find the serial number near the orange arrows.

On fishing boats and runabouts, the serial number will be on the transom on the starboard side.

On pontoon boats, the serial number will be on the starboard side of the boat at the stern.

The serial number will start with STR, then five numbers, then a letter, then three ending numbers.
