

Buckeye Sports Center

Trade-in Program

Think of it as “growth insurance.”

Kids and young adults love to ski and board.

And, they love to grow! To help protect your investment, we offer our own buy-back program. Most young adults get two years out of a pair of boots, and up to three years from skis or a board.

But, if they outgrow their equipment after one year, we'll give you 50% of what you paid as credit toward new equipment.

If they outgrow it after two years, we'll give you 25% of what you paid toward new gear! It's better than a lease, where you must get new equipment every year whether it still fits or not.
